CPU WEIGHT PLATE

Warranty period: 5 year

OK2038A

Designed for fitness men and women,PU weight plate is made of high-quality materials, environmentally friendly and odor-free. It has a 4-hole grip design and can be used for hand-held exercise or barbell exercise. It is the best choice for your fitness.

- >The precision tooled stainless-steel inserts allow the plates to slide freely on the bar.
- >Urethane outperforms rubber in its ability to protect your steel plates from abrasion, rust, and general wear and tear.
- >Comfortable triple-grip hand holds are easy handling, loading and unloading.
- >The OKPRO PU weight plate can be customized logo according to requirements.
- >Size:1.25-25kg

Warranty period: 5 year

HEX BAR

OK6082

The Hex bar might be one of the strangest pieces of gym equipment you will see in the gym today. Don't let that put you off though, it's an excellent addition to any serious strength and conditioning set-up.

One reason for this is its ability to reduce tension on the lumbar spine whilst developing lower body power. It does this by allowing you to step 'into' the bar instead of standing behind it. This means you will be able to drive more weight off the floor with your hips and legs in a more upright position without the strength of your back coming into question.

The Hex bar is also a useful tool for teaching beginners how to deadlift without the dangers of weak backs and poor flexibility getting in their way, and for tall athletes who struggle to deadlift conventionally.

OP PLATE RACK

OK0037D

Horizontal Bumper Plate Rack Strength Fitness Rack Plate Holder Standard Plate
If you're looking for a bumper plate storage option, please consider this rack as it works very well. It is easy to roll around in your garage and looks neater than having your weights stacked. Previously had your bumper plates stacked on the ground and this helped tremendously with the pain in the butt of picking them off the floor. Holds your set great with a little wiggle room in each divider to pick out the plates with ease.

WALL MOUNTED HALF RACK

OK0043E

The design challenge was to come up with a wall-mount unit that could be folded inward or outward for space savings, yet still offer the sturdiness of our standard Monster Lite racks. To achieve this, our engineering team developed a unique hinge-and-pin system that is both easy to install and rock solid. In use as a squat stand, pull up rig, or power rack, the feel is miles beyond lighter setups that use thinner steel.

The WALL MOUNT RACK is built with two steel up-rights, laser cut, with Westside hole spacing through the bench/pull area. All steel is powder coated in the factory for a durable finish.

EXERCISE WHEEL

OK1315B

The design utilizes more range of motion than traditional ab rollers or traditional core exercises to allow for more exercises for the moderate to a very advanced user. Move in any direction or hold positions to develop body control and hit stabilizer muscles during upper and lower body moves all while targeting core muscles. Using this Lifeline Power Wheel, in conjunction with functional training, will assist in increasing joint mobility and stability as well as developing more efficient motor patterns.

FASCIA GUN

OK8302

A percussion massager is a handheld device that applies pulses of concentrated pressure deep into your muscle tissue. This form of deep-tissue massage can work knots and tension out of the muscles while improving blood flow and quickly enhancing range of motion. When used properly, a percussion massager can shorten your recovery time while relieving some of the pain, tension and soreness that comes naturally from intense martial arts workouts.

- >Material: ABS
- >Size: 25*23*6.5cm
- >Output Voltage:100-240V

GUA SHA TOOLS

OK8301

Gua Sha results in the appearance of small red spot called "sha", that will fade in 2 to 3 days. Remarkable efficiency by removing toxins from the body by draining energy from blood, stimulated and moves to drain toxic to the skin. It can relieve the illness quickly. The patient experiences immediate relief from pain, stiffness, fever, chill, cough, nausea, and so on.

WEIGHT VEST

OK1748

The OKPRO fitness adjustable weighted vest is an excellent tool to help add resistance to your workout, whether it be for aerobics, sports conditioning or training for military, fire-rescue or law enforcement. Weighted vests have become popular tools to help lose weight, build endurance, gain muscle strength and improve cardiovascular conditioning more efficiently.
