

STAR TRAC
VersaStrider™

MAKING STRIDES TO FIT EVERY BODY

Creating a truly custom feeling cardio experience is no easy task, but that is what the VersaStrider was built for. Using revolutionary MyStride™ technology, this variable stride elliptical allows for a dynamic movement path that fits each user regardless of size, shape or intensity of the workout. Whether you are running at your full stride length or cooling down with a smaller stepping motion, the VersaStrider can adjust to your stride without the use of buttons. Paired with the unparalleled connectivity and customization of OpenHub cardio consoles, the VersaStrider is one machine that truly feels like a custom fit for every user.

SMART. AFFORDABLE. FLEXIBLE.

When we set out to design our new console, our philosophy was simple: provide a flexible platform that connects expert partners to provide solutions for every customer for today and into the future. Introducing the new OpenHub™ family of Cardio Consoles. OpenHub™ is a smart, affordable, configurable solution available on Star Trac® and StairMaster® cardio equipment. The best part is, you add (and pay for) only what you want, when you want. The future of club connectivity is here. The future is OpenHub™.
